

## **COMMITTEE TO PROMOTE SUPERIOR TOWNSHIP – “One Superior Place” Meeting March 15, 2017**

**Remarks and Announcements** – Brenda Baker and Carla Bisaro attended; regrets were received from Nancy Caviston and Jane Frye. Brenda reported that the article she had written for *Superior Scenes* about our Superior Places notebooks had been timely submitted. She used the example of St. Joseph Mercy Hospital to illustrate the types of inclusions in our listings, and added that there was some possibility space would allow further content from our committee urging the use of Superior Township in return addresses.

**Library Display/Bookmarks/Superior Places Binders** – The library display for March was the poster featuring Superior Township Parks. Placement of our bulletin board after the library space reconfiguration caused a problem for the hanging notebook, so that problem has been corrected. A thumb drive of all the Superior Places inclusions has been delivered to Clerk Lynette Findley for use in the new webpage. Although there is a plentiful supply of Superior Places bookmarks, an inventory of individual bookmarks has not yet been done.

**Email List/Township Webpage** – Discussion centered on the distinction between a committee email list and a Township email list, and ways to clearly indicate which list is being referred to.

**Superior Places** – There has been no real progress reported on any of the Superior Places profiles listed in the agenda. Some progress has been noted at the Jack R. Smiley Nature Preserve, but trails are not open yet, and so do not merit a description.

**Events, Outreach and Community Pride** – Superior Day has been scheduled for June 10, and our Committee will follow most of the same planning as in the past. With Carla’s absence, staffing may become difficult, but Nancy’s willingness to fill in should help. Brenda brought a sample of the New Resident Welcome Packet, and will scan it to provide copies to other committee members. She repeated her desire to have the Township marquee be more fully used, even when not informing of a specific event. None of the other agenda listings were considered until Carla told of her early and promising efforts to arrange for an ice-carving demonstration in support of Parks & Rec’s winter tree-lighting event.

**Committee Development** – Brenda has determined that she will attempt to address the public at the next Board of Trustees meeting, telling of the activities of our group and seeking a response from Township residents.

**Committee Business/Schedule Next Meeting** – The next meeting is scheduled for 7:00 p.m., Wednesday, April 19, 2017 at Superior Township Hall.
