Gas Pipe and Gas Meter Sizing Worksheet

Project Address: _____

The International Fuel Gas Code, Section 402.1 & 402.2, requires the gas meter and piping to be sized for the full appliance load. To ensure compliance, this worksheet shall be completed prior to the issuance of a permit for the following types of installations:

Tankless Water Heaters, Generators, and Pool Heaters

Identify all gas-fueled appliances in the building and complete the information below:

APPLIANCE:	BTU RATING	N/A
Tankless water heater		
Water heater		
Furnace		
Dryer		
Stove		
Oven		
Gas fireplace		
Swimming pool heater		
Other		
Generator cubic feet or kW rating		
TOTAL:		

Cubic foot capacity of gas meter: _____

If the total exceeds the capacity of the current gas meter, I am aware that I will have to contact my natural gas provider to have an appropriately sized meter installed. This will be done before the final inspection. The Property Owner's signature is required as acknowledgement of the meter capacity requirements.

Contractor Signature: _____

Property Owner Signature: _____
