**DATE: FEBRUARY 17, 2026**

**WHEREAS**, the Township currently has yet to establish, approve, and implement additional standards specific for data centers; and

**WHEREAS**, the Township has a legitimate public purpose in assessing the regulation of the establishment and use of data centers within the Township; and

**WHEREAS**, the Township Board is desirous of assessing its regulations to implement an appropriate regulatory approach for addressing potential impacts of data centers while ensuring the productive and healthy development of data centers within the Township, which may include designated areas where data centers may be located within the Township; and

**WHEREAS**, the Township Board wishes to consider and assess amendments to its current regulations regarding the use of data centers that are consistent with all applicable state and federal laws, including any controlling precedent from the United States Supreme Court; and

**WHEREAS**, the Township Board finds that it is necessary and reasonable to establish a temporary moratorium on the establishment and use of data centers within the Township for twelve (12) months or until the Township has enacted a regulatory ordinance setting forth the regulations for the establishment and use of data centers within the Township, whichever occurs first.

**NOW, THEREFORE, BE IT RESOLVED** by the Township Board as follows:

## Data Explanation

Reporting Period: January

### CCW REPORT:

This report lists all incidents verified as carrying a concealed weapon violation that occurred within the area during the reporting period.

### OUT OF AREA REPORT:

This report details the amount of time (in minutes) that deputies assigned to the contract area (patrol area) spend outside of that area, along with the reasons for being out of area. If the contract area is part of a collaboration, it is not possible to separate the data for each individual area within the collaboration in this report.

### INTO AREA REPORT:

This report details the amount of time (in minutes) that deputies not assigned to the contract area spend in that area, along with the reasons for their presence. If the contract area is part of a collaboration, this report separates the data by each area within the collaboration.

### VIOLATIONS:

This report lists all violations that occurred during the reporting period. A single citation may include multiple violations. The “sum” value represents the number of citations, not the total number of violations.

### TRAFFIC STOPS:

This report is generated from deputies’ activity logs, which document each traffic stop and the associated reason. The numbers in this report may differ from those on the “Police Service Data Report” page, as that report reflects only verified offenses. For example, a traffic stop verified as an OUID will appear in the “Police Service Data Report” but will not be included in the “Traffic Stops” report.
